

INTERNATIONAL AMATEUR RADIO UNION

REGION THREE

MONITORING SYSTEM NEWSLETTER

February 2024

Wahyudi Hasbi, YB1PRY

Reports for February 2024 were contributed by ARSI and JARL.

For this period there were 26 observations from ARSI and 2 observations from JARL. By this month's sampling, there are a total of 28 observations of intruders made across the Region.

The most prominent intruders are in the following table:

No.	Band	Class Emission	Administration	Description
1	40m	J3E/U	CLN	Srilankan trawlers occupying the frequency. Male to male talking in sinhala and fair signal noted.
		J3E/U	CLN	Srilanken troulers talking. Male to male QSO. Poor signal noted.
		J3E/U	UNID	Male to male talking, Language not identified & poor signal noted
2	20m	J3E/U	CLN	Talk in sinhala by the srilanken trouwers, male to male. Fair signal notes
3	15m	J3E	UNID	No Call

Notes <ARSI>: *Well this month I found the 40 meter and 20 is still occupied by Srilanken trawlers & unidentified stations. Radio Ethiopia is not seen on 7110 KHZ from December 15th 2023 onwards. They have already left our ham frequency & that is great success on our part. When I checked, in the night they are using 7235 KHZ, their allotted frequency, but not heard here. Voice of broad masses from Eritrea in Africa after 15.00 hours UTC on 7140 as well as 7180 KHZ is not heard this month.*

Further more detail is provided in the attached data report.

Thank you to all the regional observers for their reports, these reports are needed and really appreciated. Monitoring reports can also be sent directly to the monitoring coordinator if you don't have a national monitoring coordinator.

For those who would like a CSV file of data please email me at: yudi@iaru-r3.org

Just a reminder that reports should be sent to the Monitoring Coordinator by the 14th day of each month.

Thanks for your support.

Wahyudi Hasbi YB1PRY
